

Hound Heater Bracket

Assembly Directions

1) 2- 1/2" machine bolts/ nuts for heat shield deflector

2) 3- 3/4" machine bolts/nuts for mounting Hound Heater to bracket

3) 4 - 1 1/4" machine bolts/wing nuts to mount bracket to house

STEP 1

Locate the parts for assembly. All nuts and bolts are located in the enclosed plastic bag

STEP 2

Pull the power cord through the hole in the bracket. The cord will bend in a downward direction, this is normal.

STEP 3

Assemble the Hound Heater Furnace to the bracket with three of the 3/4" bolts/nuts. The bottom of the bracket is the large angle part with the two holes

STEP 4

Assemble the Hound Heater deflector shield to the bracket with the (2) 1/2" bolts/nuts

Full Assembly

This is what the finished product should look like.

Step 5

Drill four holes through the bracket's pre-drilled holes to attach to the house. Carefully slide the four 1.25" bolts, wing-nuts and washers through these holes and tighten.
